Contracts for Excellence (C4E)

- NYCDOE receives Foundation Aid from the State, which is a portion of the overall budget.
- A November 2006 Court of Appeals decision stated that a child in the State has a right to a "sound basic education" and that the State has the responsibility to increase funding for New York State schools.
 - As a result of this court decision, the New York State Legislature passed legislation requiring that, for each school district that has at least one school that requires academic progress or is in need of improvement, the school district would receive an increase in foundation aid and a portion of that foundation aid would be subject to the categorical spending requirements of the Contract for Excellence. Funds were first received in the 2007-2008 school year.
- These funds, under State law, must be distributed to schools that meet certain requirements and must be spent by those schools in designated program areas, as set forth in the Contract for Excellence legislation.

NYC Department of Education 2

Contracts for Excellence (C4E) Requirements

1. Funds must support specific program initiatives:

- **Class Size Reduction** – opening additional class sections, creating more classrooms or school buildings, assigning more than one teacher to a classroom, and other approved methods, to facilitate student attainment of State learning standards, with priority given to pre-K through grade 12 students in overcrowded schools, particularly those requiring academic progress, schools in need of improvement, schools in corrective action, and schools in restructuring status
- **Time on Task** – programs focusing on students who may require additional or increased individualized attention in order to raise achievement
- **Teacher & Principal Quality Initiatives** – programs supporting development & retention of high quality teachers and principals for raising achievement in struggling schools
- **Middle & High School Restructuring** – instructional and structural changes in middle and high schools to support class size reduction and raise achievement in struggling schools
- **Full-Day Pre-Kindergarten Programs**
- **Model Programs for English Language Learners** – programs aimed at supporting schools in adopting "best practices" for raising achievement among English Language Learners

NYC Department of Education 3

Contracts for Excellence Requirements (cont'd)

2. Funds should be used towards meeting schools' overall educational goals as outlined in the School Comprehensive Educational Plan (SCEP) and must be allocated predominantly to students with the greatest educational needs, such as

- English Language Learners
- Students in Poverty
- Students with Disabilities
- Students with Low Academic Achievement or At Risk of Not Graduating

3. Funds must supplement, not supplant, local funding or other grants:

- Expenditures made using C4E funds must "supplement, not supplant" funding provided by the school district; however, SED has provided guidance explaining that certain expenditures may be paid for with C4E funds even though these programs or expenditures were originally or have been typically paid for by the district or by other grants. For example, if a program had been funded by a different grant, but that grant funding has been cut, then C4E funds can be used to fund the program.
- For new or expansion of existing programs only

NYC Department of Education 4

State C4E Funding Breakdown 2020-21

Total = \$531 million

- Unrestricted funds are not subject to C4E rules and may be used as needed. \$183 million is embedded in Fair Student Funding, which is the primary funding source for schools. Details for Fair Student Funding can be found by visiting: https://www.nycenet.edu/offices/finance_schools/budget/GSRPC/allocations/may/fy20_21/fy21_doc/fy2021_sen001_1h.htm
- Restricted funds must comply with C4E guidelines. \$348 million is distributed through school allocations. The State has not given DOE any additional C4E funding above the amount it provided last year.
- NYCDOE is in "Maintenance of Effort" status, meaning that C4E funds will be used to maintain programs that were approved in prior years.

Class Size as an Allowable Activity During the 2020 – 2021 School Year

For the 2020-2021 school year, the DOE will continue its efforts to reduce class size, one of the allowable activities for which Contracts for Excellence funds may be spent pursuant to the C4E legislation, in the following ways:

- For the 2020-2021 school year, NYCDOE will continue to focus on the lowest performing schools in its class size reduction efforts.

The New York State Commissioner of Education has determined that the five-year C4E Class Size Plan created in 2007, when the C4E legislation was issued, is no longer in effect.
